PARKS AND RECREATION COMMISSION STAFF REPORT

Meeting Date: September 6, 2018

Subject

Citywide Parks and Recreation System Master Plan – Park Recommendations, New Park and Recreation Facilities, and Added Recreation Elements

Recommended Action

Provide input on proposed park recommendations, new park and recreation facilities, and added recreation elements for the Citywide Parks Recreation System Master Plan.

Background and Discussion

A master planning process is underway for Cupertino's citywide parks, open space and recreation system. The public, the Parks and Recreation Commission ("Commission") and the City Council have weighed in on varied topics throughout the process to date.

The consultant team has prepared a table that summarizes recommendations for existing city park sites (see Attachment A). Two additional tables address new park and recreation facilities, and recreation elements to be added to the system, including potential locations (see Attachments B and C). They reflect community-wide input received to date. The Commission and the public are invited to provide feedback on these draft documents.

Fiscal Impact

None.
